## **Holy Communion - Sunday 7 June**

In accordance with UCA Assembly guidelines for live streaming of communion the Church Council have approved communion to be celebrated as part of the live stream services. The next communion service will be held this week - Sunday 7 June. Some may prefer not to have communion at home as part of the service and that choice is respected. For those wishing to share in communion please have ready a small amount of bread (enough for those present) and some juice or water or appropriate drink so that you are ready to share in communion together as an online community of faithful disciples of Jesus.

### **Covid-19 Update and our Building complex**

***Council this week adopted the following statements about worship, reopening the church and meeting in homes.***

As we are one congregation, we will not recommence worship until government, Synod and Presbytery advice make it possible for all services to begin.

Having considered the post June 1 regulations from government, and advice from Synod, Church Council agreed to the following guidelines to apply from June 1 to June 22.

Given the requirements of fewer than 20 persons and 4 square metres per person in a room of a church building, no meetings will be held at the church during this time.

**The complex remains closed.**

While it may be legal for people to meet in homes, with fewer than 20 persons able to maintain 1.5m between them, that does not mean that it is advisable. Certainly no member should be pressured to attend. Whether to attend should be a free and considered decision of each member, considering their own health, exposure and vulnerability. Church Council cannot endorse such meetings as church groups.

## WIKI Help

Did you know that the wiki adheres to the Doctrine of Forgiveness? Yes, any mistakes that you make when editing the wiki can be quickly forgiven, and through the divine grace of the Psalter, you can backtrack to where you were before you made the mistake. Unlike email, where once you press the SEND button you cannot undo your typing (don't we all know the angst that that causes?), the wiki allows you to REVERT the page to the version it was before you pressed the SAVE button. Just click on the "Info" link at the top of the page, click on the "view" action of the version you want to go back to, and then when you see that page and check that it is what you want, click on the "More Action" and choose "Revert to this revision". That's it! Your sins are forgiven.
